# EMPOWERING EDUCATORS TRAINING

## SUPPORTING STUDENT GRIEF

*in partnership with The New York Life Foundation*

## A PRACTICAL TRAINING FOR SCHOOL PERSONNEL

**FREE** training for K-12 educators, administrators, teaching assistants, counselors, and school support staff.

Gain tools to recognize and respond to grief in students and learn practical strategies to create a supportive school environment.

### WHY THIS MATTERS

- 1-13 children in California will experience the death of a parent or sibling by age 18 (CBEM 2026).
- When we include the loss of extended family, friends, and mentors, that number is even greater.
- Without timely support, grieving students face higher risk of academic struggles, social isolation, anxiety, depression, and substance use.
- Early intervention helps students regain hope and envision a positive future.

### EDUCATIONAL OBJECTIVES

- Understand the unique ways children and teens process grief
- Learn how to implement a bereavement plan of care for students impacted by grief and loss
- Identify key stratagies and interventions to utilize in a school setting after the death of a student or faculty member
